

## **Joint Press Release Tarkio College Alumni Association & Tarkio College**

In an historic move, the Tarkio College Alumni Association has transferred ownership of the former College campus back to Tarkio College as of March 6, 2019. The agreement provides a permanent home for the Alumni Association and the museum in Rankin Hall while expanding opportunities for repairs on this local landmark as the College moves toward re-opening for technical classes.

Seeking to repair the many vacated buildings, TC administrators are applying for grants through organizations such as the United States Department of Agriculture and the Missouri Department of Economic Development. These funds are targeted toward educational organizations to encourage training opportunities and economic development in high need areas such as Northwest Missouri.

The agreement to transfer the campus property is the result of much hard work involving the Tarkio College Alumni Association Board, the Tarkio College Board of Directors and the National Advisory Board. Special thanks go to TCAA Board chair Wayne Gelston and TC Board chair Don Jagger, shown below signing the documents.
